PROFILE SUMMARY

Front-End Developer with hands-on experience in building responsive and user-focused web interfaces. Skilled in converting Figma and Adobe XD designs into high-performance websites using **React.js**, **Tailwind CSS**, and **Bootstrap**.

Proficient with **Git/GitHub** and experienced in remote collaboration through **Zoom**. Known for attention to detail, code quality, and consistent delivery on time.

EXPERIENCE

Frontend Developer, (Freelancer) | Upwork

January 2024 – Present

- Completed several web projects for international clients.
- Developed responsive interfaces from Figma designs using React.js and Tailwind CSS.
- Utilized Git/GitHub for version control and team collaboration.
- Delivered clean and optimized code while maintaining high performance.

Frontend Developer, Output Agency

January 2025 – May 2025

- Built a government website for the **Ministry of Tourism** using modern front-end tools.
- Collaborated with designers to achieve pixel-perfect implementation.
- Applied GSAP animations to improve user engagement and interactivity.
- Ensured cross-browser and cross-device compatibility.

Frontend Developer, Bahannan Studio

May 2025 – June 2025

- Refactored an existing website to fix layout and responsiveness issues.
- Implemented UI enhancements and animation effects using GSAP.
- Added and managed blog articles using **WordPress** to enhance SEO and content structure.
- Delivered improvements based on user testing and client feedback.

EDUCATION

Bachelor in Information Technology University of Hadhramout
